DAVID SMITH

Senior Class Will of 1962

Being of sound mind and memory, meditating on the brevity and frailties of human life, and having withstood the engulfing maelstrom of our riotous life in Webberville High School, and being desirous of disposing of our temporal affairs that no question may arise after our demise as to their proper disposition: therefore, we the class of 1962 of Webberville High School in the town of Webberville, township of Leroy, county of Ingham, and state of Michigan, do make, ordain, publish and declare this, our last will and testament, revoking all other wills made by us heretofore.

I. We bequeath to our beloved faculty all the amazing knowledge and startling information that we have furnished them from time to time in our various examination papers. ORGANIZATIONS

Mr. C. W. Search heads the Webberville Vocational Agriculture department and has for the past 6 years. The F. F. A. and other Farmer organizations take up many of his after school hours while the 3 classes keep him busy during the day.

Vocational Agriculture

Much work goes on in the Ag. shop during the year. These are just a couple of projects the boys are working on.

The F. F. A. is an important part of Vo. Ag. This picture shows the officers left to right: Keith Schuchaskie, Bob West, Rich Hamlin, Dave Jason, Gary Lantis and Warren Douglas.

Vo. Ag. and F.H.A. go hand and hand as is shown at the right with Rich, Bob, Linda, Marie and Marilyn.

When Warren Douglas isn't wandering the halls you can find him in the Ag. shop working. Here we see him and Mr. Search busy at work on his project.

MR. RAWSON

Here is the 1962 Parliamentary Procedure team. There have been a lot of pleasant hours spent with this Ag. organization this year. This too keeps Mr. Search busy.

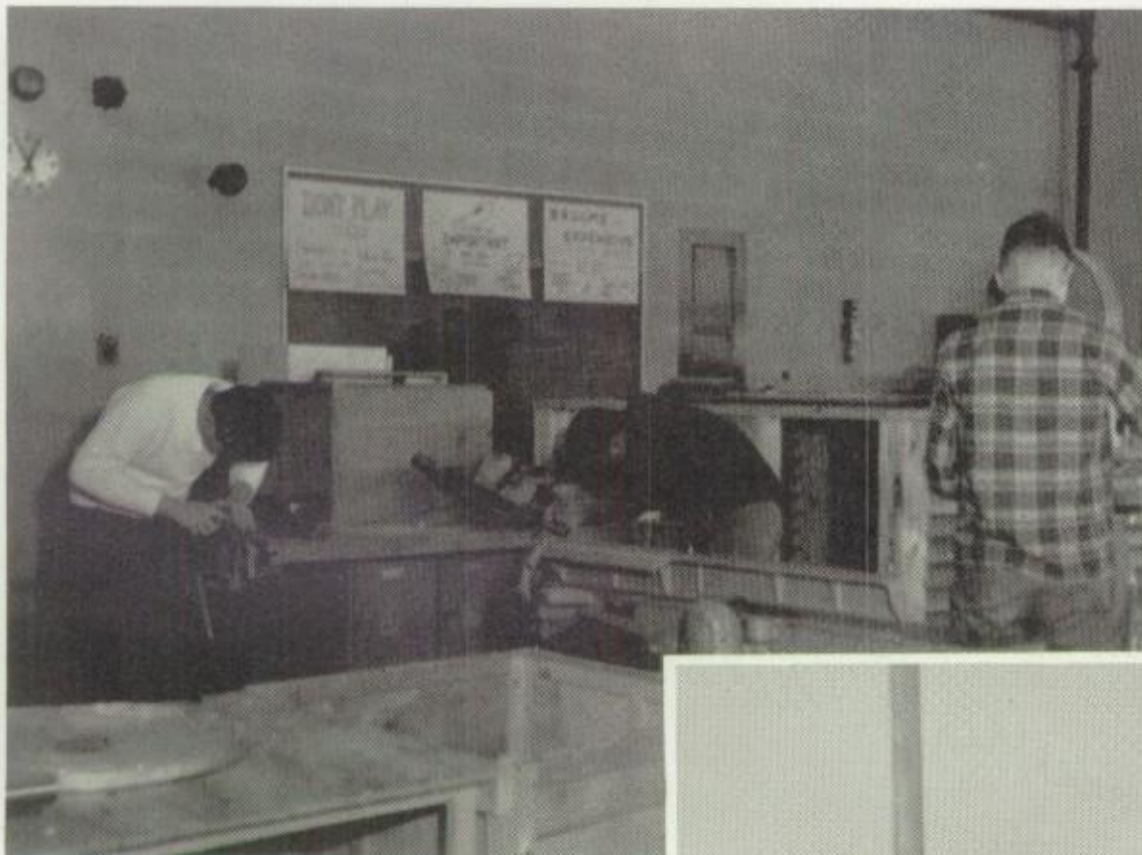

Industrial Arts

Mr. James R. Maker is our Ind. Arts teacher. He has been with us at Webberville for 3 years, and his classes have been continually growing. Shop classes and Mechanical Drawing are both included in his Industrial Arts teaching. U. S. History and Basketball coaching round out his teaching load.

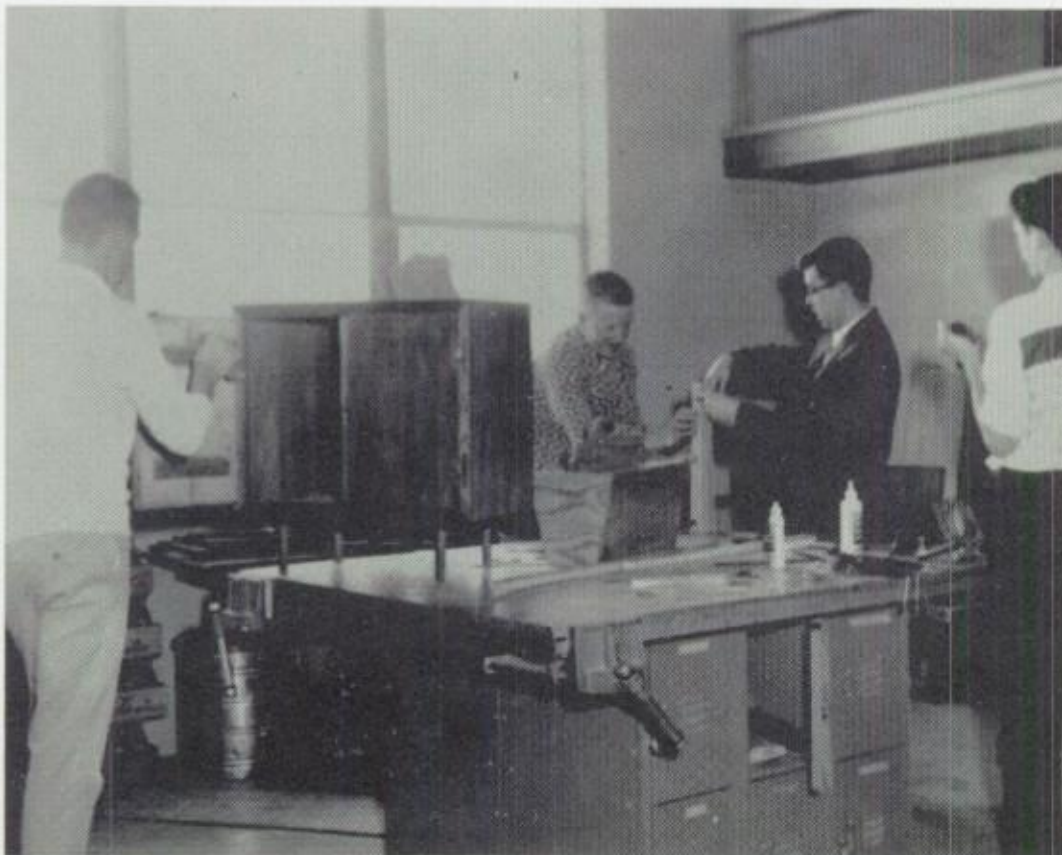

With a very good inventory of power and hand tools, students don't have problems finding jobs in the Shop.

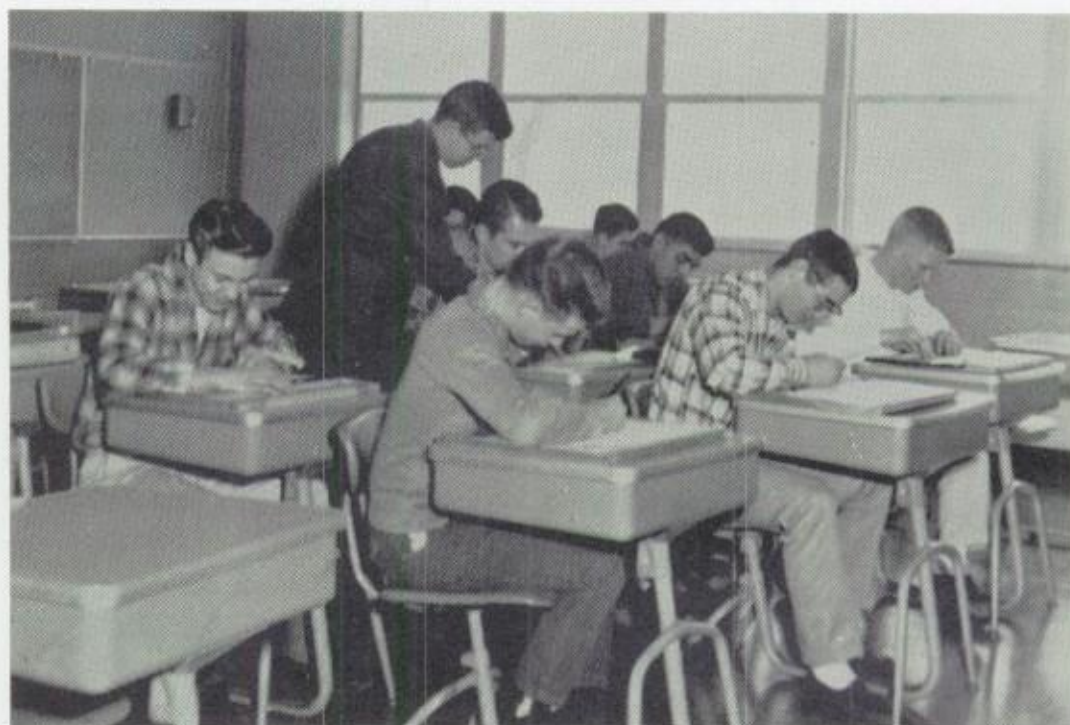

Good lighting and interest of students also helps in providing a good Industrial Arts program.

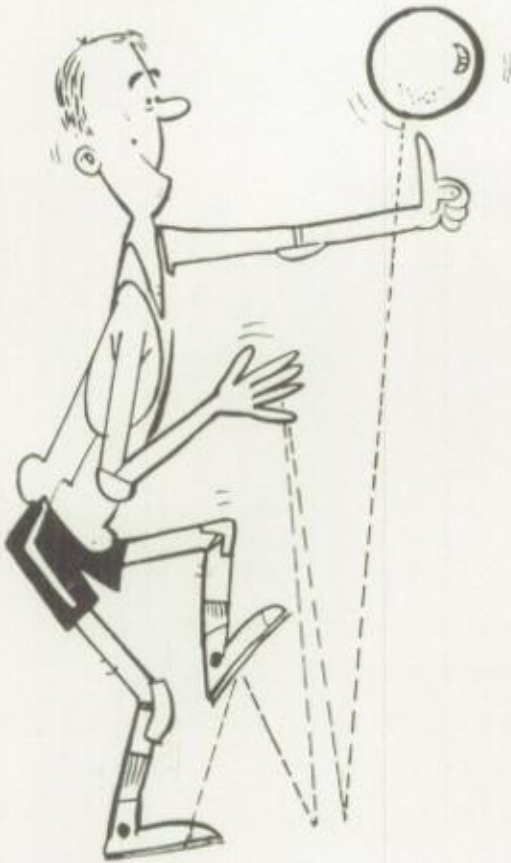

Students from 10th and 11th grades are shown here at work on their projects. With the many power and hand tools the students are able to make many beautiful Projects.

Mechanical Drawing provides a variety in the Industrial Arts program. This is a new class in Webberville high school and has provided a great deal of enjoyment and interest for all students involved.

This picture shows a Mechanical Drawing class in action 5th hour in room 24.

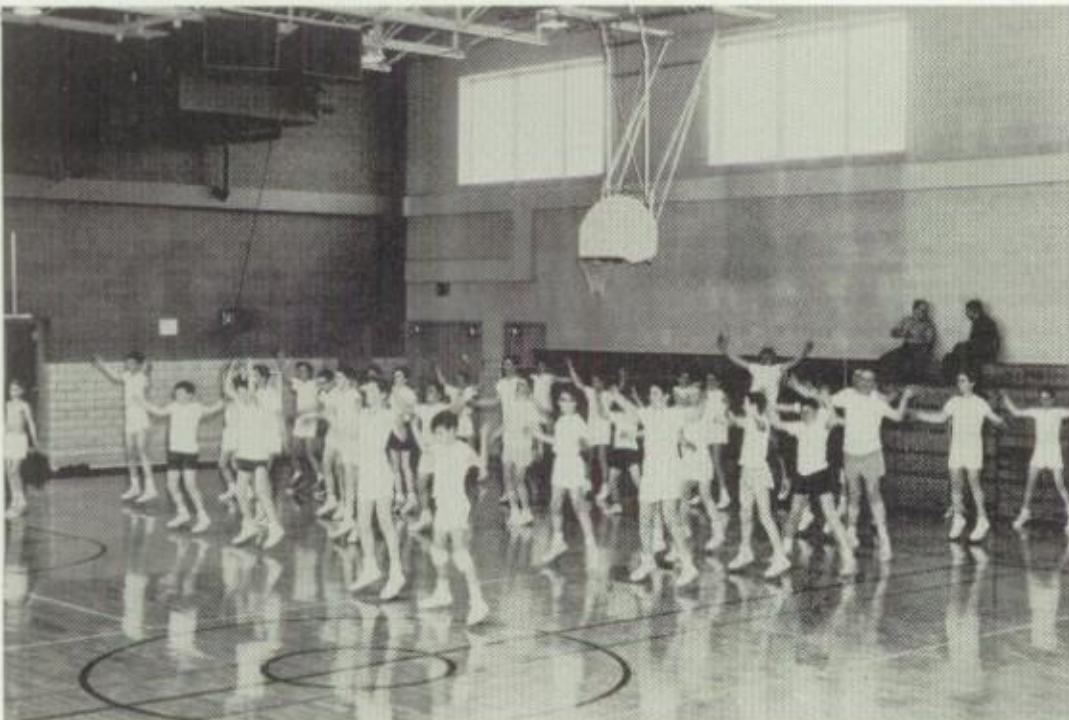

The Physical Education teacher for boys' P.E. is Mr. Buckingham. He has been here at Webberville for two years after graduating from M.S.U. in 1960. His other teaching duties are Biology and noon recreation advisor. Basketball, Football and Baseball coaching also are part of Mr. Buckingham's duties.

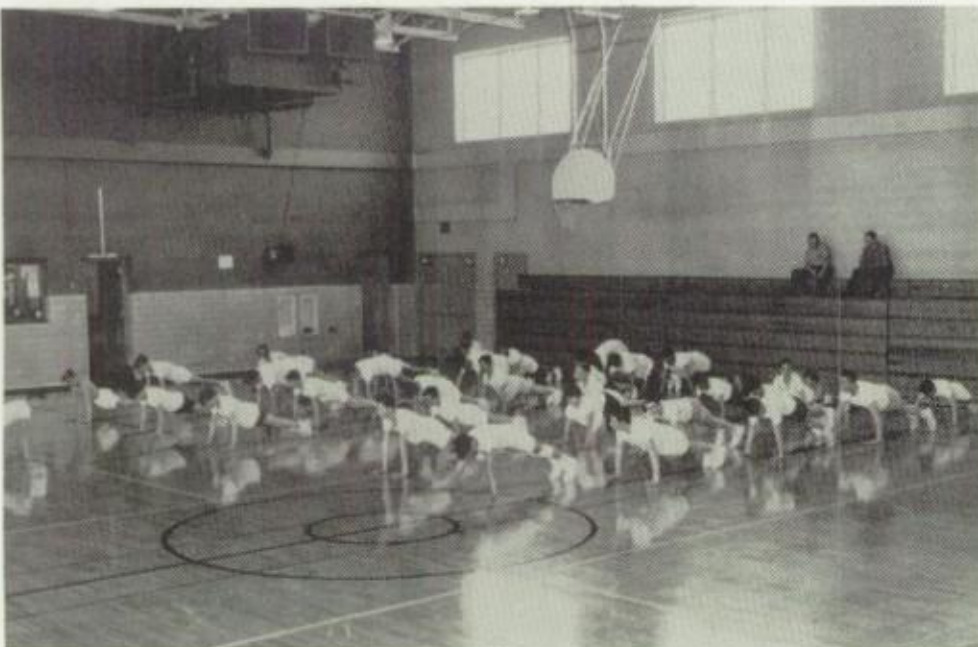

Boys' Physical Education

Physical Education classes give boys and girls both opportunities to have a good time as well as develop their bodies and competitive spirit.

These things are very important in producing a good citizen.

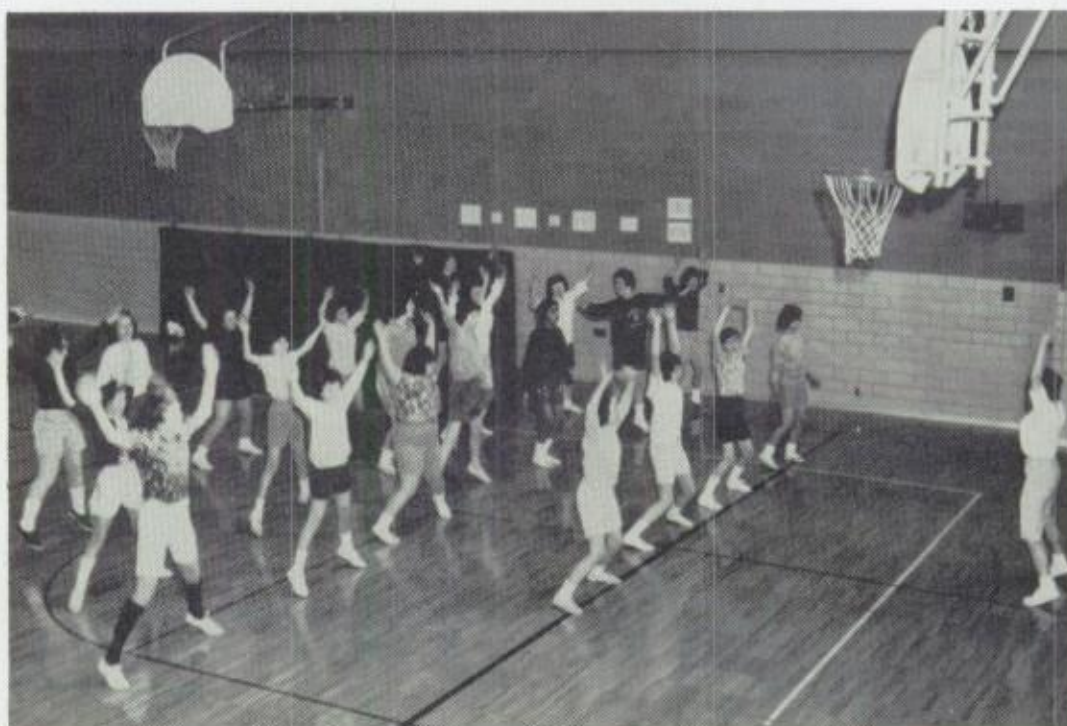

Mrs. J. Stewart heads the girl's Physical Education classes. She also teaches high school English. The G.A.A. and Cheerleaders take up a lot of Mrs. Stewart's after school hours. Mrs. Stewart has been here at Webberville for two years.

Girls' Physical Education

Sometimes Girls' P. E. looks as though it is a bit disorganized but these girls and Mrs. Stewart have done a very good job. The girls thoroughly enjoy the chance to use the gym and athletic facilities which usually are thought of as boys' property. The girls in these two pictures are only a couple of examples of what goes on in girls' P. E. classes.

Freshman Class hard at work!

Mrs. Kleiver, who has been teaching here for seven years heads the science department. You always find her busy with a science experiment or on a math problem. Her classes always are interesting and of much value to the entire school.

Science

With a very complete inventory of equipment, our science lab finds all classes very busy. There always are experiments of some sort going on in the lab. In the top picture you see Marie Comer, Emil Ruhlig, and Marilyn Schneider busy and in the bottom picture are many students busy at work. Biology, taught by Mr. Buckingham, also makes much use of the science lab.

Mrs. G. Chadderdon runs a very complete library for a school our size and it is continually growing. Just ask Mrs. C. if you need any assistance and she will always help. Driver Ed. also keeps Mrs. Chadderdon busy.

Library

Here we see Mrs. C. working with Keith Monroe.

Students are always busy at work in the library any hour of the day.

Mrs. Chadderdon and A. Force are admiring a picture painted and donated to the library by Mrs. Force.

Driver education helps Mrs. C. keep in gray hair.

Business

**WE CAN'T ALWAYS
BE WRONG.....**

**BUT
WE KEEP TRYING!**

Here we see Mr. Green hard at work with the high school band. This year is the first year with Mr. Green at Webberville. He is a graduate of Boston University and U. of M. This teaching load includes Band, Elementary Vocal and Instrumental Music, Economics and Social Studies.

Music

Band practices are very essential and here we see the band busy at work. The band has improved with every performance and are continually sounding better.

Band formations are much fun and look good. Here the band is in a W on the gym floor. They look as good on the football field as they do here.

Spartan Jr. High Teams End Season with 16-4 Mark

Although Webberville's varsity basketball team went winless through the regular '61-62 season, it looks as if the Spartans' basketball fortunes may be on the upswing.

The Webberville 7th and 8th grade teams both completed the season with impressive records.

The 7th graders were 9-1, and the 8th grade was 7-3, for a combined record of 16-4.

The teams outscored opponents 716-434.

Coach Jim Maker said the boys worked well together and are willing to listen to advice when they do something wrong.

"They hustle and hustle, and when they are tired they hustle some more," he said.

In the first 7th grade game against Leslie the Spartans had seven players on the squad compared to 20 for Leslie, but still led until the last few minutes of the game.

That was the only loss for the 7th graders. They beat Leslie by 10 points the second time around.

The 8th graders lost three games, two of them to Leslie by a total of three points and the other to Fowlerville by six points.

Jerry Arnold averaged 14.5 points a game for the 8th grade.

This year, the junior high teams won 3 and lost 1 with Fowlerville; won 4 from Bancroft; won 4 from Dansville; won 1 and lost 3 with Leslie, and won 4 from Perry.

In rebounds, Webberville outscored opponents 577-463.

Dusty Weaver led 7th grade scorers with a 10.8 point per game average.

"There were six other boys who averaged six to 10 points a game," Maker said, "so the scoring was well balanced."

Maker said prospects also look good for next year.

"The 8th graders will be a big asset to next year's reserve team, and this year's 7th graders will make a fine 8th grade team."

He also said that the 6th graders show signs of promise.

Each game, statistics were taken on bad passes, violations, fumbles, rebounds, recoveries, and assists. The last three are the favorable points.

"Weighing the plus factors against the minus factors, the teams came out in the plus column by a great deal," Maker said.

REST TIME

The Junior Varsity Cheerleaders proved to be very active again this year. The party following the Haslett victory was enjoyed by everyone on the J.V. team. Much planning was required to make the season as enjoyable as it was.
